EDUCATION

University of Texas at Dallas — M.S., Management Sciences, Dallas, TX Aug 2024 – May 2026

Scholar with Recognition — Naveen Jindal School of Management

University of California, Irvine — B.S., Biological Sciences, Irvine, CA Sep 2017 – Jun 2021

WORK EXPERIENCE

Operations Analytics Specialist, Lelon Electronics Corp, Jiangsu, China Jan 2022 – Jul 2024

- Reduced waste 70% in 6 months by redesigning manufacturing workflows using SQL, Pareto analysis, and Python visualization
- Saved \$7,000/month by engineering a closed-loop wastewater treatment system with SQL-driven KPI dashboards
- Secured 100,000+ unit Bosch purchase order by overhauling cross-departmental processes to meet supplier qualification standards

R&D / Quality Assurance Scientist, Lelon Electronics Corp, Jiangsu, China Jun 2021 – Jan 2022

- Captured 4% EV market share by developing Lelon's first conductive polymer hybrid capacitor through A/B testing and iterative formulation analysis
- Prevented \$100,000 in contract penalties by resolving mold defects for Huawei, Apple, and Bosch within one week

Manufacturing Intern, Lelon Electronics Corp, Jiangsu, China Jun 2019 – Sep 2019

- Increased capacitor output 166% by redesigning the production line to eliminate manual handoffs

PROJECTS

AI / Robotics Market Entry Strategy, Texas Instruments, Dallas, TX Jan 2026 – Present

- Built a weighted scoring model across 11 robotics segments and 9 criteria including silicon content and market entry risk, finalizing weights with TI's marketing director to identify 4 priority segments
- Developed an executive strategy deck covering TAM, CAGR, competitive landscape, and market entry barriers across the 4 selected segments, presented to a TI executive panel and client leadership team
- Mapped competitive exposure across 15+ semiconductor rivals by benchmarking market penetration, certification readiness, and portfolio breadth

Pricing Analytics & Demand Forecasting Platform FleetPride, Dallas, TX Jan 2026 – Present

- Quantified price sensitivity across 5,000+ SKUs by building Python XGBoost elasticity models with 20+ features including macroeconomic indicators
- Reduced scenario analysis time to seconds by developing a 6-tab Streamlit pricing tool with portfolio rankings and raise/lower/hold recommendations
- Coordinated an 8-person analytics team to deliver a full pricing analytics solution from Jan to May 2026

SKILLS & ADDITIONAL INFORMATION

Technical: Python, SQL, Machine Learning, Statistical Modeling, A/B Testing, Snowflake, AWS, Hadoop, Hive, Impala, Tableau, XGBoost, Streamlit, Pandas, NumPy

Languages: English (fluent), Mandarin (fluent)

Work Authorization: Authorized to work in the U.S. (STEM OPT eligible); TN visa eligibility as a Canadian citizen
